

Office for the Protection of Research Subjects

New Alert Page Template & Guidance

OPRS is issuing a template for Alert Pages and a Guidance document that describes what information should be placed on an Alert Page.

This Alert Page template should be used immediately. Please review existing Alert Pages for your protocols and update these existing Alert Pages using the template. **Please submit the new single Alert Page document with your next amendment or continuing review submission, whichever is submitted earliest.**

Even if there is only one Alert Page currently posted, please revise this Alert Page so that it is in the new Alert Page template.

Please note that it is critical for the safety of subjects that all information for an Alert Page be located on one Alert Page document; and, that the information is current and up-to-date.

This Alert Page template and Guidance can be found here:
