

## **Clinical Investigator Toolkit**

We are pleased to announce the development of the Clinical Investigator Toolkit. The toolkit was created to provide DF/HCC clinical investigators with standardized tools that facilitate the rapid writing and development of investigator-initiated research studies.

The Clinical Investigator Toolkit is publicly accessible through the DF/HCC website ([www.dfhcc.harvard.edu](http://www.dfhcc.harvard.edu)) and the Clinical Trials Portal.

- For Partners Users, the portal is located in the Partners Applications Menu under the Oncology Protocol System (through the Start button).
- For Non-Partners Users, the portal is accessible through the following URL: <https://webctportal.mgh.harvard.edu>.

Questions and comments about the Clinical Investigator Toolkit should be directed to Michele Copersino ([mcopersino@partners.org](mailto:mcopersino@partners.org) or 617-582-8422).
