### **New Clinical Trials Reporting Requirement**

In a recent bulletin we announced the NCI changes to clinical trials registration with their new Clinical Trials Reporting Program (CTRP), effective January 5, 2009. We want to be sure that members know that a DF/HCC group has been working on this project since the end of July as part of a pilot project with NCI and five other institutions. We are making recommendations that this process be centralized for DF/HCC but the details are still to be finalized. The working group will get back to members with the final information once it has been vetted with the DF/HCC leadership. If you have questions you may contact Jane Russell or Alyssa DellaCroce in the QACT at 617-632-2114.
